

# Wildcat®

Wildcat (100% Textured polyester Bulk thread)

# Best stretch®

Best Stretch (100% Textured Nylon Bulk thread)

Wildcat®

Best Stretch®

## PRODUCT DESCRIPTION

Wildcat is made from continuous filaments of polyester that have been stretched, textured and then heat-set to ensure proper bulk retention. Wildcat textured threads are ideal for overedge, chain stitch and cover stitch operations on knitted garments. They are also used for serging operations on woven apparel to prevent the edge of the fabric from fraying. Wildcat textured threads offer high bulk for excellent seam coverage, good seam elasticity and are less expensive than most other thread types

Best Stretch is made from continuous filaments of nylon that have been stretched, textured and then heat-set to ensure proper bulk retention. Best Stretch textured threads are ideal for overedge, chain stitch and cover stitch operations on knitted garments. They are also used for serging operations on woven apparel to prevent the edge of the fabric from fraying. Best Stretch textured threads offer high bulk for excellent seam coverage, good seam elasticity and are less expensive than most other thread types

## FEATURES & BENEFITS

- Excellent seam coverage and strength
- Good chemical resistance
- Superior thread lubricant allows sewing with minimal tension
- Partially translucent to blend with many shades.
- Good Colorfastness
- Available in natural, white or colors
